

**M. Selim Ünlü** received the B.S. degree from the Middle East Technical University, Ankara, Turkey, in 1986, and the M.S.E.E. (1988) and Ph.D. (1992) degrees from the University of Illinois at Urbana-Champaign, all in electrical engineering. Since 1992, he has been a professor at Boston University. He is currently a Distinguished Professor of Engineering appointed in electrical and computer engineering, biomedical engineering, physics, and graduate medical sciences. He has also served as the Associate Dean for Research and Graduate Programs in engineering as well as the Associate Director of Center for Nanoscience and Nanobiotechnology. His research interests are in the areas of nanophotonics and biophotonics focusing on high-resolution solid immersion lens microscopy of integrated circuits and development of biological detection and imaging techniques, particularly in high-throughput digital biosensors based on detection of individual nanoparticles and viruses.

Dr. Ünlü was the recipient of the National Science Foundation CAREER and Office of Naval Research Young Investigator Awards in 1996. He has been selected as a *Photonics Society Distinguished Lecturer* for 2005-2007 and Australian Research Council Nanotechnology Network (ARCNN) *Distinguished Lecturer* for 2007. He has been elevated to IEEE *Fellow* rank in 2007 for his *contributions to optoelectronic devices*. In 2008, he was awarded the Science Award by the Turkish Scientific Foundation. He received the Boston University Charles DeLisi Distinguished Lecture Award in 2016. His professional service includes serving as the chair of the Annual Meeting for IEEE Photonics Society and Editor-in-Chief for *IEEE Journal of Quantum Electronics*.
